

Water and sewerage regulators and watchdogs

There are various regulators and watchdogs that monitor the way water is supplied and sewerage services are provided in England and Wales.

Wessex Water works closely with these organisations which oversee our activities to ensure we meet and where possible exceed industry standards.

This leaflet provides information on the water industry regulators and watchdogs and their contact details. It forms part of our code of practice for household customers.

The Water Services Regulation Authority

(Ofwat) is the economic regulator of the water and sewerage industry in England and Wales. Its role is to ensure companies operate in accordance with their licence conditions.

Ofwat

Centre City Tower, 7 Hill Street, Birmingham B5 4UA
Tel: 0121 644 7500
Fax: 0121 644 7699
Email: mailbox@ofwat.gsi.gov.uk

The Consumer Council for Water (CCW) is an independent organisation which represents the interests of water consumers in England and Wales. Its role is to make sure the consumers' collective voice is heard in the national water debate. If you have a complaint and followed Wessex Water's complaints procedure but remain dissatisfied, you can ask CCW to investigate.

Consumer Council for Water

1st Floor, Victoria Square house, Victoria Square,
Birmingham B2 4AJ

The Drinking Water Inspectorate (DWI)

provides independent reassurance that water supplies in England and Wales are safe and drinking water quality is acceptable to consumers. It produces independent annual reports on the quality of public water supplies in England and Wales. These can be obtained from the DWI.

The Environment Agency (EA) has the principal aim of protecting the environment in a way that contributes to sustainable development by managing air, land and water. It is responsible for control of pollution in rivers, underground waters and in coastal waters. The agency oversees the amount of water we take from the environment to supply our customers.
