Wessex Water Services Ltd
2022-23 Indicative Wholesale Charges

Introduction

Our Wholesale Charges document sets out the charges that, in the absence of any contractual agreement, our Licensed Providers must pay for the services we provide in the course of carrying out our water and sewerage undertaker duties.

Ofwat's Wholesale Charging Rules, published in March 2020, requires undertakers to publish their 2022-23 indicative wholesale charges in October 2021.

This document sets out our indicative Wholesale Charges for 2022-23.

Indicative charges were reviewed by the Board of Directors in September 2021 based on the best information at the time. We will publish our final Wholesale Charges for 2022-23 in December 2021. Our final Wholesale Charges will be updated to reflect the latest available information, including November CPIH and any information received through ongoing stakeholder engagement before their final approval by the Board.

This document sets out:

- Indicative primary charges; and
- Indicative wholesale special agreement information.

In the interests of transparency, we have also published indicative wholesale charges using the standard wholesale schedule template.

¹Customers eligible for the surface water drainage rebate will not be charged for this element.

Schedule 4

Measured wholesale wastewater charges

Charges for a measured wastewater service:

Category of charge	£
Volume charge (£ per m ³)	1.6345

Subject to a minimum annual charge of £20,000 and a one-off sampling fee of £500 customers may elect to pay wastewater charges based on the actual strength of effluent discharged.

In this case the volume charges above will be those set out under R, V, B and S of schedule 5 - wholesale trade effluent charges.

Additional fixed drainage charges

Where water use is ≤20,000m³:

Category of charge	Surface water drainage charge ¹	Highway drainage charge
	£ per annum	£ per annum
Non-household meter <25mm	21	22
Non-household meter ≥25mm <30mm	107	111
